

Meet the people behind the technology.

Ronald C. Zumstein

Vice President, Manufacturing

Dr. Ronald C. Zumstein, 47, was elected Vice President of Manufacturing of our company effective March 15, 2010. In this role, Dr. Zumstein manages all aspects of the company's global manufacturing operations, technology resources and corporate engineering across all Albemarle and Albemarle-affiliated facilities.

With over twenty years of experience with Albemarle, Dr. Zumstein has successfully held a wide variety of positions with increasing responsibility, including roles in research and development, process and product development and plant management at several of the company's planet sites. Most recently, Dr. Zumstein served as Vice President of Manufacturing Operations and previous to that role, he served as Albemarle's Vice President of Health, Safety and Environment. Dr. Zumstein served as Vice President of Manufacturing for the company's Polymer Additives division.

A native of Knoxville, Tennessee, Dr. Zumstein received a B.S. degree in chemical engineering from the University of Tennessee and his Ph.D. in chemical engineering from North Carolina State University.
