

Meet the people behind the technology.

Susan D. Landry

Advisor, Fire Safety & Advocacy

With over twenty-five years with Albemarle, Ms. Landry serves as the company's Advisor, Fire Safety & Advocacy. In this role, she promotes the benefits of Albemarle's flame retardant products with a wide variety of stakeholders, particularly in the U.S.

A respected expert on flame retardants, Ms. Landry has received fourteen patents related to these products and has presented numerous papers and presentations on flame retardants, with a particular emphasis on fire safety, regulatory, and recyclability. She recently authored a chapter ("Changing Chemical Regulations and Demands") in the American Chemical Society Book entitled, "Fire Retardancy of Polymeric Materials, 2nd Edition". Ms. Landry has served on an assessment panel in the Building & Fire Research Laboratory at the National Institute of Standards and Technology and is a member of the SPE, SFPE, and SAE.

Since beginning her career at Albemarle, Ms. Landry has been a tremendous asset to the company's flame retardants group. Prior to her current role, she spent the majority of her time in the Flame Retardant Applications and Technical Service group, where her expertise was in styrenic resins, UV stability, recyclability, and experimental design.

Ms. Landry received a B.S. in Polymer Science from the University of Southern Mississippi in 1984.
